

Trauma, the Brain, and Resilience:

A Roadmap for Educators

**Session 2 of 3 in this series,
join 1, 2, or all 3 sessions!**

Relationships that Heal: Building Connection in the Classroom

Grounded in neuroscience, this session highlights the role of safe, consistent relationships in buffering the effects of trauma and fostering resilience. Educators will explore strategies for cultivating trust, belonging, and classroom community. Participants will leave with approaches to strengthen relational practices that enhance both academic and emotional growth.
